EDUCATION

National Institute of Electronics and Information Technology	**08 2021 – 08 2024**
Degree Name - BCA	*Srinagar, India*

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Network Security
- Database Management System (DBMS)
- OOPS Concept
- Web Development

TECHNICAL SKILLS

Languages: TypeScript,Python, Java, C, JavaScript
Developer Tools: VS Code, GitHub, Intellij IDEA Ultimate, Git, Postman
Technologies/Frameworks: Nextjs,Reactjs,RESTful APIs, Redux, Redux Toolkit, Docker, Redis, Socket.IO, NodeJS, ExpressJS, Firebase, MongoDB, Tailwind CSS,Shadcn UI,Daisy UI, Bootstrap, Chakra-UI

PROJECTS

Personal Protfolio Website ⬈Live | NextJs

Cure Cart ⬈Live | MERN

Developed an easy-to-use e-pharmacy platform that makes buying medications online simple. Users can upload prescriptions, and the site has a secure payment system and strong inventory management.

- ∗ Implemented caching in the backend to improve the efficiency and speed of data retrieval.
- ∗ Added backend features to track and update order statuses like "Processing," "Shipped," and "Delivered," so users can view the status of their orders.
- ∗ User Authentication: Ensured that users can only view the status of their own orders by integrating proper authentication and authorization mechanisms.
- ∗ Used React Toolkit Query for efficient data fetching and state management.

TechThreads ⬈Live | NextJs

TechThreads is a blog site where users can read about new tech topics and stay updated on recent developments.

- · **Code Implementations:** Each topic includes concise, practical code summaries for easy integration.
- · **Secure Login:** NextAuth provides a smooth and secure user authentication experience.

Anonymous ⬈ | NextJs

Anonymous is a platform that allows users to create a unique link for receiving anonymous messages from friends. Users can easily share this link on social media or other platforms to gather messages without revealing their identity.

- · **Credential-Based Authentication:**Credential-Based Authentication: Utilized NextAuth for secure login, allowing users to sign in with their credentials.
- · **Type Safety**: Implemented TypeScript to enhance code reliability and maintainability.
